Physics Faculty Vacancy, August 2003 Castleton State College

JOB CODE: 8830

Salary: Open
Location: UNITED STATES
Type: Full Time - Experienced

Castleton State College seeks applications for a tenure-track position in physics beginning August 2003. Applicants must have a Ph.D. in physics or related field (ABD considered, with completion by start date) and evidence of commitment to undergraduate education. Castleton offers several degrees in science, including biology, geology, and environmental science. The position includes teaching introductory physics and appropriate lower- and upper-level courses in the candidate's area of interest, such as physical science or astronomy. Castleton places a special value on the teaching role of its faculty, and candidates for this position will be evaluated principally on the basis of their potential to be outstanding teachers. We particularly invite applications from candidates interested in helping us develop strong science education offerings for preservice and inservice teachers. Good interpersonal skills and the ability to work effectively with colleagues are also essential. Salary is dependent on qualifications and experience. Castleton is a small state college located in the lakes region of western Vermont. Review of applications will continue until the position is filled. Send résumé, three letters of recommendation, and a statement of teaching interests (including proposed courses) to: Dr. Joseph T. Mark, Academic Dean, Castleton State College, Castleton, VT 05735. EOE.
